

845 Fort Stockton Construction Update – June 2008

Here is an update of continued construction activities scheduled for 845 Fort Stockton:

- Placement of reinforcing steel
- Placement of concrete foundations footings and columns
- Placement of slab on grade foundation.

Please note that during these operations, the traffic patterns will be adjusted as equipment and materials arrive to the job site.

We will be pouring concrete on June 6th, and June 11th through June 19th. We will be staging on Falcon Street and the same traffic patterns will be in place. We do not anticipate any closures on Goldfinch this month with the exception of a temporary closure on June 4th for a crane operation.

Falcon Street will continue to be closed southbound from Fort Stockton during normal working hours until further notice.

Thank you for your continued patience and support. If you have any questions or concerns please contact Nicole Anderson at CLB Partners Ltd at (858) 841-9100 X16.
